

ENVIRONMENTAL POLICY

RAW Technology Limited (RAW) specialises in spill response, sustainable soil and water remediation, and research & development in these areas. The Company recognises and accepts its responsibility to ensure that the business activities minimise the damage to the environment and, by virtue of the nature of its business, always strives to have a positive impact upon the environment.

RAW will provide suitable and sufficient resources to meet these responsibilities and comply with all applicable legislation and the requirement of BS EN ISO 14001, ensuring that services are provided in such a way as to minimise the environmental effects of material usage and disposal.

RAW will ensure that these objectives are achieved by:

- Re-using or re-cycling of waste materials whenever possible.
- Minimising the use of resources (materials, fuel and energy).
- Minimising all emissions and discharges (noise, gaseous, solid and liquid) and ensuring compliance with all regulatory controls.
- Considering the environmental effects and the pollution prevention requirements when making business decisions, including the purchase of materials or equipment and the adoption of new technology/processes.
- Encouraging all third parties involved with the business to adopt a policy of environmental management.

RAW is committed to a policy of Environmental Management throughout the Company activities and, furthermore, is committed to a process of continual improvement of environmental performance.

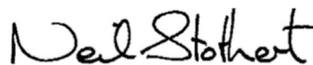

The arrangements in place to implement this policy form part of the day to day operational procedures of RAW. Where opportunities for improvements in environmental performance are identified, appropriate corrective actions and relevant objectives and targets will be established. All identified issues will be tackled promptly, and with sufficient resources, to ensure that they are dealt with adequately.

A copy of this policy will be displayed at all offices and will be provided to all employees during their Company induction. Where requested, a copy of this policy will be made available to all interested parties. Employees at every level of the Company are expected to take all reasonable steps to safeguard the environment, whilst at work.

This policy shall be reviewed for its effectiveness and suitability at least annually as part of the management review process, or sooner if legislative or other changes require.

The Integrated Management System and RAW's associated Procedures are approved by the undersigned as the authoritative documents relating to the environmental impact of the Company's activities.
